

Arseniy Pomazkov

Date of birth: 16.10.1998

Nationality: Russian

Location: Belgrade, Serbia

I am a Senior Front-end Engineer with 3+ years of experience in different spheres: FinTech, lead generation, MedTech, etc. I have created several innovative and highly-profitable digital products on a national and international level, helping thousands of people.

Professional Experience

Siren Group, Zurich, Switzerland

Senior Front-end Engineer

May 2022 - Present

Implemented an MVP2 for the flagship service called HomeBuddy from scratch, which now has 1mln+ MAU and GMT of ... **XXX**

Developed an architecture for several key features, introduced end-to-end tests doubling the reliability of releases, participated in 20+ interviews and helped to hire 2 Senior Engineers and a Team Lead.

Currently, I continue implementing new features, doing code reviews on a daily basis to increase the code quality of the project, and collaborating with PMs and Back-end devs to create a faster and easier communication process.

AMAI (AI Interaction Corp), California, USA

Senior Front-end Developer

Mar 2022 - May 2022

AMAI is a seed start-up developing ultra-realistic text-to-speech voice engines backed by major investors and raised \$600k. I worked on an Indiepub – an innovative service able to synthesize text to speech within mutes. I refactored internal NPM-package legacy code increasing new features' delivery by 50%, led Junior and Middle Front-end developers and collaborated with the Team lead on planning future expansion.

VTB, Moscow, Russia

Leading Engineer

Mar 2021 - Feb 2022

Entirely built the API Platform front-end from scratch proving the significance of the project and helping on making the decision to launch a full-scale development. Joined the team of front-end. Collaborated closely with the design, backend, and support teams, and made extensive documentation of the project. The production version of the API Portal developed by me and the extended team had **over 100k MAU, decreased the company's expenses by 0.5%, and increased the partnership applications by 100%, which had a significant positive impact in profits.**

Trainee

Sep 2020 - Mar 2021

Worked on several early-stage projects, including AR banking, VTB Passport, and the API Platform at an early stage. I developed user stories, built landing pages, collaborated with designers, and initiated several UX improvements. Made documentation and started development of the front-end part of the MVP of the API Platform.
