

POMAZKOV ARSENIY

FRONT-END DEVELOPER

EXECUTIVE PROFILE

I am a front-end developer with **3+ years experience** in building customer-oriented useful digital products with convenient UX, good-looking UI and reliability for a huge variety of purposes – from online shops to API services.

Looking for new opportunities and eager to accept challenges!

PREVIOUS POSITIONS

MIDDLE FRONT-END DEVELOPER, LEADING ENGINEER

VTB | 2020 – present

Working as a front-end engineer at the innovation department at one of the largest fintech companies. I have achieved significant goals:

- Developed and launched an MVP of an innovative fintech-product at VTB: an API portal (**IBM APIC**) on **Drupal 9**;
- Built a universal authentication system (VTB Passport), including validations and error-handling (**React, TypeScript**, internal **styling components**);
- Developed an API manager using TYK management platform, including uploading and parsing functionality and a text-editor for **.yaml** files (**React, Typescript, Redux, AntDesign**);
- Managed an innovative AR project for bank offices, in which I was responsible for communications with vendors and internal departments, controlling deadlines and planning.

FRONT-END DEVELOPER

Upwok | 2019 – 2020

I started my career at the international freelance platform – Upwork. I built various projects' functionality: from fixing legacy code to creating new features in big and already working systems.

Not only it helped me to level up my spoken English, I also learnt to communicate with different types of clients and to find ways of reaching agreement in all kinds of situations.

TECHNOLOGIES

CORE: HTML, CSS, JavaScript, Typescript, React

TOOLS: Redux, Redux-Thunk / Redux-Saga / MobX, immerjs, Jest, Next.js, axios, JQuery, twig

STYLING: SCSS/SASS, CSS-in-JS, MUI, Materialize, ANTdesign

BACK-END: Node JS, Express, SQL/noSQL, MongoDB, mongoose

COLLABORATION: Git (GitHub/BitBucket), Jira, Confluence, Notion, Agile, Scrum, Kanban

SOFT SKILLS

Being a team-player, I am good at communication, which is crucial for achieving ambitious goals. At the same time freelance projects taught me to take responsibility for important decisions and to count on myself.

Constant learning helps me to be creative in problems' solving, which is one of my favourite parts of being a software engineer.
